

MARYLAND CENTER FOR PERIODONTICS & DENTAL IMPLANTS

Dr. Martin Leybovich, DDS, MSD | Dr. Christopher Barth, DMD, MS

INVITING YOU TO
AN EVENING OF INFORMATION & COLLABORATION

GUIDED IMPLANT SURGERY: WHERE, WHAT, WHEN, WHY?

This CE lecture will discuss indications for guided implant surgery in the different regions of the mouth. Specific attention will be given to the specific sites of the mouth – posterior vs. anterior dental implant placement. Attendees will be able to understand how to treatment plan these cases and how to plan the CT guides for these cases. We will take into account the local anatomy, esthetics, and vital structures. We will also touch on the importance of temporization and soft tissue development in these cases.
